

Irene Jessel, Food and Beverages Officer

I'm Irene, a 2nd year medic. I've decided to apply for the position of food and bevs officer because I didn't think anyone would vote for me if it was a contested position. Thanks for reading- you've entered the 1% of Fitz students that has done so x

Buttery

-Theme night

- survey of possible nights- e.g. Russian night wasn't popular compared to having fried chicken night last year; maybe seafood/ sushi night
- stop wrapping fish and chips in paper- not environmentally friendly, annoying to unwrap

-Brunch

- Warm waffles and pancakes- maybe keep on a hot plate or something
- Debate on the hash browns- level of crispiness to be determined
- Debate on having hot breakfast food available in the week
- Mimosas for brunch

-General buttery

- Extend opening time with half an hour/ change hours from half 6 to half 7, because most supos start on the hour and this will give people the opportunity to have a half an hour window to get tea
- Veggie gravy

Cafe

- Bringing own food into cafe – is it commercial- what is the reason for prohibiting this?
- Toasties with vegan cheese
- Selling a wider variety of chocolate bars- especially Kinder Buenos.

Bar

- Price list for alcohol

JCR

- Making the vending machine cam card activated

Formal- vegan/veggies

- Vegan chocolate brownie back
- Cheaper formals, because the raw material is cheaper than for the meat option
- Nicer vegan option- consult students maybe? "a stuffed onion with onion on the side is not a meal"

General formal

- More themed formals- Meme formal; Breakfast formal with pyjamas mandatory and gowns on top- mimosas complementary; goat themed formal in light of the fact that Fitz will be celebrating its 150 year anniversary this year
- Gravy boats- meat can be dry sometimes
